

## **Guidance for those attending church**

Our three churches are open for worship each Sunday. If you feel ready to come, you will be very welcome. The following precautions are in place following government and Church of England guidelines.

If you have symptoms of COVID-19, you must not attend.

Face coverings need to be worn in church, with the exception of those who have a specific reason for not doing so. Social distancing of 2 metres is maintained by careful seating arrangements and we ask you to be mindful of this as you move around the building. We ask everyone to sanitize their hands as they enter the building. We will also be making a note of everyone who attends and a contact telephone number (with permission), in order to assist with NHS Test and Trace. These details will be kept securely and destroyed after 21 days.

At present there is an upper limit on numbers: Holy Trinity 45 people; Christ Church 36 people and St John's 25 people. It is worth arriving some time before the service to ensure we can maintain social distancing whilst entering the church. Let us all continue to hold each other in prayer as some return to church, while others still wait, asking that God will protect and guide us in the days to come.
